### **I. General Information**

#### *A. Does this Action Apply to Me?*

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including those interested in environmental and human health assessment, the chemical industry, chemical users, consumer product companies, and members of the public interested in the assessment of chemical risks. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

#### *B. What Should I Consider as I Prepare My Comments for EPA?*

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI

information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

*2. Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

## II. Background

On January 9, 2013, EPA published a notice in the **Federal Register** (78 FR 1856) (FRL-9375-1) on the availability of five draft TSCA chemical risk assessments for public comment.

The Agency also asked for nominations for external experts to conduct peer reviews of the draft TSCA risk assessments, including one entitled, “TSCA Workplan Chemical Risk Assessment for Trichloroethylene: Degreaser and Arts/Crafts Uses.” Trichloroethylene (TCE) (CASRN 79-01-6) is one of 83 chemicals identified for review and assessment in EPA’s TSCA Work Plan, which was released on March 1, 2012, at <http://www.epa.gov/oppt/existingchemicals/pubs/workplans.html>.

This information is distributed solely for the purpose of pre-dissemination peer review under applicable information quality guidelines. It has not been formally disseminated by EPA. It does not represent and should not be construed to represent any Agency determination or policy.

The draft TCE TSCA risk assessment is being peer reviewed consistent with guidelines for the peer review of influential scientific information and highly influential scientific assessments. EPA asked a contractor, SCG, to assemble a panel of experts to evaluate the draft TCE TSCA risk assessment report for specific uses of TCE. SCG evaluated 27 candidates that were nominated as peer reviewers by the February 8, 2013 deadline established in the January 9, 2013 **Federal Register** notice and evaluated over 100 additional experts before submitting the proposed peer review panel members. The proposed peer review panel was vetted by the contractor for conflict of interest and the appearance of bias according to Agency peer review guidance as detailed in the contract. This proposed peer review panel members include: Penny Fenner-Crisp, Chair; James Cerhan; Jeffrey H. Driver; Timur Durrani; Montserrat Fuentes; Kathleen Gilbert; Mike Jayjock; Deborah Keil; Ron Melnick; David Morgott; Kenneth Portier;

Barry Ryan; Raymond Runyan; and Calvin Willhite. The biographies are available in the docket (docket ID number EPA-HQ-OPPT-2012-0723). The public may provide comments to the same docket for the draft TCE TSCA risk assessment on the appearance of a conflict of interest for any proposed peer review panel member. This comment period on the peer review panel membership closes on *[insert date 21 days from date of publication in the **Federal Register**]*. The final list of peer review panel members will be available on the SCG's website at <http://www.scgcorp.com>.

The peer review panel is responsible for the review of the scientific and technical merit of the draft TCE TSCA risk assessment, which is available through <http://www.regulations.gov> and at <http://www.epa.gov/oppt/existingchemicals/pubs/workplans.html>. The peer review panel will not address potential policy implications or risk management options that may result from the draft TCE TSCA risk assessment. Members of the public may register to attend any or all three meetings as observers and may also register to speak offering oral comments on each day of the meetings. A registered speaker is encouraged to focus on issues directly relevant to science-based aspects of the draft TCE TSCA risk assessment and to address specific scientific points in the speaker's oral comments.

The first peer review meeting on July 9, 2013, will be dedicated to hearing registered speakers' oral comments on the draft TCE TSCA risk assessment and reviewing the charge to the peer reviewers. Each speaker is allowed between 3-5 minutes, depending on the number of registered speakers. Given time constraints, a maximum of 30 speakers will be allowed to offer comments. If more than 30 speakers register to provide oral comments, speakers will be selected by SCG in a manner designed to optimize representation from all organizations, affiliations, and present a balance of science issues relevant to the Agency's TSCA risk assessment. Peer review

panel members will have access to written comments and materials and electronic materials submitted to the docket by July 23, 2013. Registered observers and speakers will not be allowed to distribute any written comments or materials or electronic materials directly to the peer review panel members. To submit written comments, please follow one of the methods outlined in **ADDRESSES**. The public comment period closes on July 23, 2013.

The second peer review panel meeting on July 17, 2013, will be devoted to deliberations of the draft TCE TSCA risk assessment by the peer review panel, guided by the charge questions to the peer review panel.

The third and final peer review panel meeting on August 7, 2013, will focus on the peer review panel's discussion of its draft TCE TSCA risk assessment recommendations to EPA. The final peer review panel report will be prepared by SCG and made available to the public according to the Agency peer review guidance at <http://www.epa.gov/peerreview>. EPA will consider SCG's peer review panel report of the comments and recommendations from the three peer review meetings, as well as written comments and materials and electronic materials in the docket at <http://www.regulations.gov>, as it proceeds to finalize the TCE TSCA risk assessment.

#### *B. Required Registration Information*

Members of the public may register to attend any or all three meetings as observers, or register to speak if planning to offer oral comments during the scheduled public comment session of a meeting. To register for the meetings online or by mail, you must provide your full name, organization or affiliation, and contact information. You must also indicate which meetings you plan to attend and if you would like to speak during the scheduled public comment session of a meeting. If you register to speak, you must also indicate if you have any special requirements related to your oral comments (e.g., translation).

If you indicate that you wish to speak, you will be asked to select one category most closely reflecting the content of your oral comments. These comment categories related to the charge questions are:

1. General comments on the risk assessment document;
2. Comments on the exposure assessment;
3. Comments on the hazard assessment;
4. Comments on the risk characterization; or
5. Other issues.

Should more than 30 speakers register for a single meeting, these categories will be used to ensure that a balance of substantive science issues relevant to the assessment is heard.

Additional information on the selection of speakers and speaking times will be sent out by SCG 3 days prior to each peer review meeting to all individuals registered to speak.

To accommodate as many registered speakers as possible, registered speakers may present oral comments only, without visual aids or written material. Peer review panel members will have access to any written comments and materials and electronic materials previously submitted to the docket. Registered observers and speakers will not be allowed to distribute any written comments and materials or electronic materials directly to the peer review panel members.

### *C. Web Meeting Access*

Each peer review meeting will be held via web connect and teleconferencing. SCG will provide all registered participants with information on how to participate in advance of the first peer review meeting.
